Optical Glasses

HOW TO USE THE DEVICE

1. Playing a Virtual Reality Video

Sit down somewhere comfortable and open. The ideal environment should not have very much light to maximize effect. Use a smartphone to download a VR app from the App store or play a VR video from Youtube (as shown in picture A). Search for the VR icon towards the bottom right. Tap the VR icon to switch the video to VR Mode (as shown in picture B).

2. Using the Headset

Gently open the front panel (as shown in picture C). Carefully insert your phone into the headset by sliding one side of your phone into the top brackets and the other side fitting snug against the safe foam cushion at the bottom (as shown in picture D). Check to make sure your phone is secure. Press play on our video or app. As it begins to play, close the VR headset front panel so that it locks.

3. Adjusting The Lenses

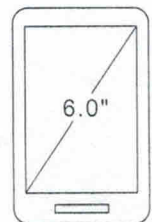

Use the center adjustment knob located on the top of the headset to adjust the lenses left and right to fit your eyes (as shown in picture E). Use the adjustment knobs on the right and left of the headset to adjust the focus for best clarity (as shown in picture F).

4. Augmented Reality

Remove the front faceplate to enable augmented reality with your headset. Select apps and programs have the ability to enable augmented reality with your phone. You will need to make sure to check if your VR app has Augmented Reality capability.

5. Compatibility:

Astoria VR is compatible with 3.5 - 6.0 inch Smartphones.

6. Content Recommendations:

1. Search for VR Apps in the app store
2. Visit our AstoriaVR channel on youtube for curated VR videos for your viewing pleasure
3. Visit www.AstoriaVR.com/content for the best VR content from around the web
4. Search Youtube for 360 degree videos on any topic of your choice to find the right VR Video for your viewing pleasure.

Warning:
Using this device is strictly prohibited when the mobile phone is charging. It is recommended to limit viewing time to not more than 30 minutes.

Disclaimer:

Astoria VR is not responsible for improper use of Astoria VR Headset and Astoria VR accessories. Adult supervision is recommended for children under the age of 10.
