Rechargeable Battery

GETTING STARTED

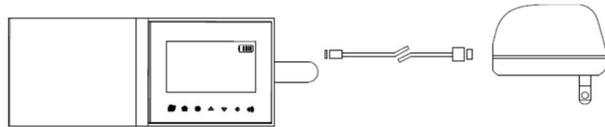

Here's what you will need to do to load your videos, music and photos onto your **did-it™** to gift, share and enjoy for years to come!

1. Remove the protective film covering the LCD screen.
2. Charge your **did-it™** album. See page 4 for detailed instructions.
3. Choose the VIDEOS, PHOTOS AND MUSIC you want to load into your **did-it™** album. Make sure the files you want to transfer are downloaded onto your PC/Laptop. See page 5 for detailed instructions, notes and tips. **NOTE: the file names cannot have symbols or punctuation in the names.**
4. Connect your **did-it™** album to your computer via included USB cord.
5. Copy your selected files to your **did-it™** album. See page 6 for detailed instructions, notes and tips.
6. Eject your **did-it™** album to safely disconnect. Please see page 5 for details.
7. Press the HOME button  to start watching your videos or the PHOTO SLIDESHOW button  to see your photos and listen to your music.

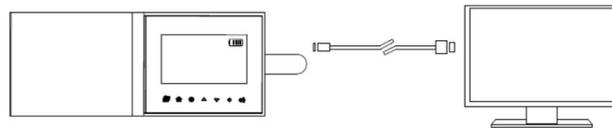

CHARGING YOUR DID-IT™

Before your first use, please charge your **did-it™** album:

1. Using the included USB 2.0 Hi-speed cord, connect your **did-it™** album micro USB port to any USB adaptor (not included).
2. Connect the USB adaptor to a power source:

or, connect the USB cord to a PC or charging laptop (must be plugged into a power source):

NOTES:

- It will take approximately 2 hours to fully charge your **did-it™**.
- Please refer to the battery bar icon on the top right hand corner of the LCD screen and re-charge as necessary.
- **did-it™** cannot be used while charging.

⚠ WARNING: Connecting the USB cable improperly may cause serious damage to the device or USB power adapter. Please ensure a proper connection for warranty coverage.

TRANSFERRING FILES TO YOUR DID-IT™

1. In order to transfer your VIDEOS, PHOTOS and MUSIC to your **did-it™** album, you will first have to download the desired files to your laptop or PC.
2. Using the included USB cord, connect your **did-it™** to the laptop or PC with the files you would like to transfer.
3. There are three (3) permanent folders in your **did-it™** album. When you connect your **did-it™** album to your laptop or PC, you will see these folders listed in or under the removable device "DID-IT" (see #4, below). Depending on the type of file you are transferring onto your **did-it™**, you will drag or copy/paste that file into the corresponding folder:
 - VIDEOS
 - PHOTOS
 - MUSIC (please note, MUSIC only plays during the PHOTO slideshow)
4. Follow the below instructions (PC or MAC) to transfer your files onto **did-it™**. Please read the "NOTES ON TRANSFERRING" section on the next page for additional useful tips and information.

STEP	USING WINDOWS (PC)	USING MAC (IOS)
4.1	Your did-it™ will be detected as "DID-IT" when you open "My Computer" or File Explorer.	Your did-it™ will be detected as "DID-IT" when you open "Finder" under "Devices".
	NOTE: It may take your laptop or PC several minutes to recognize and set up the device the first time it is connected, depending on your hardware configuration.	
4.2	Select DID-IT removable device drive to see the FOLDERS and FILES loaded on your device.	
4.3	Drag or copy and paste the files you want to load onto the album into the corresponding VIDEO, PHOTO or MUSIC folder under DID-IT. NOTE: the file names cannot have symbols or punctuation in the names.	
4.4	Delete any files you wish to remove from the VIDEO, PHOTO or MUSIC folders from DID-IT.	
4.5	When you have completed transferring or deleting files, right click on the removable device "DID-IT", select eject, then safely unplug USB cable from did-it™ .	

⚠ WARNING: DO NOT DISCONNECT OR OTHERWISE INTERRUPT THE DEVICE DURING TRANSMISSION – Doing so could damage or corrupt the did-it™ firmware or your files. If your did-it™ album is accidentally improperly disconnected and is not working properly, reset your device following the instructions under the heading "FORMATTING YOUR DID-IT™" on page 8.

NOTES ON TRANSFERRING FILES TO YOUR DID-IT™

NOTES:

- Your **did-it™** cannot be used while transferring data.
- Names of files cannot have symbols or punctuation in the names. If necessary, change the name of a file to include only letters and/or numbers.
- VIDEO files will be played in alpha-numerical order.
- Do not change the names of the permanent folders in DID-IT removable device: VIDEOS, PHOTOS and MUSIC. Only files loaded into these three (3) permanent folders will be recognized.
- Make sure files are placed in the correct DID-IT folders. Misplaced content will not be recognized by **did-it™**. For example, a music file mistakenly copied to the PHOTO folder will not play.
- In order to see that your movies have been successfully loaded into your **did-it™** Table of Contents, you must disconnect the **did-it™** from your computer. Follow proper disconnection by right clicking DID-IT and selecting "eject".

Accepted Video Formats:

- **did-it™** supports AVI and MP4 video files (Resolution: 1280 x 720, H264, Xvid & MJPG and bitrate less than 10Mbps)
- **Recommended Resolution: 1280 x 720*

Accepted Photo Formats:

- **did-it™** supports JPG, BMP image files with resolution: 3246 x 2448 - 8 Megapixels. The maximum file size is 4M.
- **Recommended Resolution: 2592 x 1944 - 5 Megapixels*

SUGGESTIONS:

To keep track of and organize your files on your **did-it™**, create three folders on your computer corresponding to the three permanent folders in DID-IT: VIDEOS, PHOTOS and MUSIC. This will enable you to set the order of videos (by naming them—your videos will be played in alpha-numerical order). Once your files are listed in the order you prefer, transfer the files to **did-it™** following the instructions on page 5.

VIEWING VIDEOS AND PHOTOS ON YOUR DID-IT™

TO TURN ON/OFF:

- Open the book cover, and your **did-it™** will automatically turn "ON". (Check that you've charged your **did-it™** following the instructions on page 4).
- To turn your **did-it™** album OFF, close the cover and secure the magnetic closure tab.

TO VIEW MOVIES:

- Press  to view the "TABLE OF CONTENTS" for video files.
- Press  /  to select the desired movie.
- Press  to play the movie file.
- When playing the movie, press  to pause / play the movie file, or press  /  to view the previous/next movie.
- You also can press  to go back to "TABLE OF CONTENTS".

TO VIEW THE PHOTO SLIDESHOW:

- Press  to start the photo slideshow, the photos will play in sequence. (Music will play automatically during the slideshow.)
- Press  /  to select a desired photo.
- The photo slideshow will play along with any loaded music files.
- To pause the music slideshow, press . Press  again to resume the slideshow.

VOLUME CONTROL:

- The volume is automatically set to level 32.
- To adjust the volume press  (quieter) /  (louder).
- NOTE: WHEN THE VOLUME CONTROL IS AT ITS MINIMUM SETTING, NO MUSIC CAN BE HEARD.

NOTES:

- Album automatically turns off when the cover is closed. When the cover is opened, the video table of contents is shown, press play to start a video or press another button depending on the desired function,
- Close the book cover when the unit not in use to preserve battery life and protect the screen.
- Clean the LCD screen using a dry cloth.
- Your SONGS will play automatically during the PHOTO SLIDESHOW (SONGS cannot play any other way).

FORMATTING YOUR DID-IT™

In the event that you have improperly disconnected your album from your laptop or PC, or if you wish to delete all files from your **did-it™** to load new VIDEOS, PHOTOS AND MUSIC, your album can be formatted when connected to a laptop or PC.

⚠ WARNING: Formatting your did-it™ will permanently delete all files from your album. To avoid loss of your VIDEOS, PHOTOS AND MUSIC, remember to confirm that you have backup copies of all files you do not want deleted.

Connect **did-it™** album to your computer via included USB cord.

USING WINDOWS (PC)	USING MAC (IOS)
<ol style="list-style-type: none">1. Your album will be detected as "DID-IT" when you open "My Computer" or "File Explorer"2. Move your cursor over "DID-IT".3. Right click on "DID-IT".4. Select "Format".5. Press "Start" to confirm.6. Click "OK" when the warning message appears saying all files will be deleted.7. Do not change any of the settings while in the format window.8. Unplug the USB cable.	<ol style="list-style-type: none">1. Choose "Launchpad."2. Select "Disk Utility".3. Click on "DID-IT".4. Click "Erase" and confirm to erase.

NOTE: After formatting, the three default folders VIDEOS, PHOTOS and MUSIC will still appear in "DID-IT". Only the files within those folders are deleted.

CHECKING AVAILABLE MEMORY

To check the available memory on your **did-it™**:

1. Connect the **did-it™** to your laptop or PC using the USB cord to check the memory in use.

USING WINDOWS (PC)	USING MAC (IOS)
Your album will be detected as "DID-IT" when you open "My Computer".	Your album will be detected as "DID-IT" when you open "Finder" under "Devices".
Select "My Computer", right click DID-IT, and choose "Properties".	Right click DID-IT under "Devices" and click "Get Info".

Your **did-it™** has 2GB of available flash memory, the pop up screen will show you how much of the memory has been used and how much free space is left.

SYSTEM REQUIREMENTS

FEDERAL COMMUNICATION COMMISSION CODE, PART 15:

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to correct the interference by one or more of the following measures:

- (a) Reorient or relocate the receiving antenna
- (b) Increase the separation between the equipment and the receiver
- (c) Connect the equipment to an outlet on a circuit different from that to which the receiver is connected
- (d) Consult the dealer or an experienced radio / TV technician for help

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The following is only applicable to customers in the USA:
