- **Monitoring Charge:** You can use the LED screen to see how charged the gadgets that are connected are.
- **Foldable Prongs:** The prongs can be folded up when not in use to protect and keep the power bank small.
- **Recharging the Power Bank:** To charge the power bank, use a wall charger that works with it.
- **Maintaining Connections:** Make sure the cables are firmly attached so that charging doesn't get interrupted.
- **Safe Use:** Keep the power bank away from high temperatures and water.
- **gadget Compatibility:** Before you use the power bank, make sure that your gadget can work with it.
- **Maintenance:** Use a soft, dry cloth to wipe down the power bank every so often to keep it clean.
- When not in use, keep the power bank somewhere cool and dry.
- **Firmware changes:** To ensure the best performance, check for any firmware changes from InfinaCore.

CARE & MAINTENANCE

- **Keep It Clean:** Wipe the surface down with a dry, soft cloth every so often to get rid of dirt and fingerprints.
- Stay away from extreme temperatures. To keep the power bank in good shape, store and use it in cool to moderate temps.
- The power bank will last longer if you keep it in a cool, dry place when you're not using it.
- **Avoid Water:** To keep the electronics from breaking, keep the power bank away from water and wetness.
- **Use the Right cords:** Always use cords that work with your device to make sure charging is safe and quick.
- **Regular Charging:** Keep the power bank charged to keep the battery from dying. Don't let it drain all the way down before charging it.
- **Check for Damage:** Regularly look over the power bank and cords for signs of damage or wear.
- As soon as the power bank is fully charged, disconnect it so that it doesn't get too charged.
- **Safe Handling:** Be careful not to drop or hit the power bank, as this could damage it inside.
- **Update software:** If the power bank has one, keep the software up to date for the best performance.
- **Watch the LED Display:** Look closely at the LED display for any strange lights that could mean there is a problem.
- **Protect from Dust:** To keep the speed up, keep the ports and surfaces clean and free of dust.
- **Use the Right plugs:** To charge the power bank, use the wall plugs that come with it.
- **Not Allowing Too Much Current:** Don't connect gadgets that need more current than the power bank can safely provide.
