

1. Connect coaxial cable from antenna to your TV

To program channels in your TV (refer to your TV Manual)

2. Go into programming Menu on your TV: Select **Channels**
3. Go to source : Cable/Satellite/Antenna: Select **Antenna**
4. Run **Auto Scan** for channels.
5. Once auto scan is completes, **Exit** programming menu.

You can then view available channels.

Note: you may need to adjust/move antenna for best signal to some channels.
