

# THE SKRAPr™

The ultimate surface scraper

## HOW TO USE THE SKRAPr™

THE SKRAPr™ has been designed and engineered to aid in the unpleasant task of cleanup, making it easier to keep your prized possessions immaculate and sparkling. Manufactured from a patented and proprietary resin, this unique tool does not promote mildew or bacteria growth, is dishwasher safe, and can be used on most surfaces.

The unique design of THE SKRAPr™ works by cradling the balled end firmly in the palm of your hand, pushing the sharpened blade downwards with one or two fingers. With a forward motion of the arm, THE SKRAPr™ will move almost effortlessly to remove the unwanted food or dirt particle.

THE SKRAPr™ is designed to be used in high-heat applications, it can be damaged on surfaces higher than 450°F. If THE SKRAPr™ surface becomes damaged or dull, it can be resharpened or reshaped using the enclosed SKRAPr PAPER™ sanding disc.

**CAUTION:** Do not use as a chisel or pry bar. It is not recommended sharpening THE SKRAPr™ beyond that of the original factory degree.

## HOW TO USE SKRAPr PAPER™

THE SKRAPr PAPER™ sanding disc is for the purpose of re-sharpening the edge of THE SKRAPr™. Simply move THE SKRAPr™ edge in a side to side motion across THE SKRAPr PAPER™ sanding disc until desired sharpness is achieved. Wash and rinse THE SKRAPr™ after re-sharpening.

### WARNING:

DO NOT USE THE SKRAPr PAPER™ SANDING DISC AS A CLEANING TOOL FOR YOUR SURFACE AREAS

**CAUTION**  
DO NOT SUBJECT TO OPEN FLAME

THE SKRAPr™ resin conforms to the composition requirements of the US FDA under 21 CFR 177.2490 for incidental food contact use. THE SKRAPr™ is a registered trade-mark of Handy Home Products Inc.
