

Volcano Humidifier

The Volcano Humidifier mimics a real volcanic eruption! Its sleek and modern design takes the shape of a real volcano, making it an artistic centerpiece in any part of your home. Simply add water or drops of your favorite essential oil to the top and watch the vapor mist out the top along with soothing lighting effects, making it an exciting and aesthetically pleasing way to humidify the air.

Functions:

1. Air Humidification
2. Nightlight
3. Touch Sensitive Switch
4. USB Cable
5. Product can be connected to a computer with a USB or a 5V output adapter

Instructions:

1. Open cover and pour water in the top designated location, making sure not to over pour
2. Use only pure or distilled water to avoid clogging the atomization chip, if you are using essential oils, only add a few drops
3. After adding in water or essential oil, wipe away any excess water or oil away with a cotton swab or paper towel
4. After 2 hours, the humidifier will turn off automatically, to turn back on simply press the on switch
5. To keep your humidifier working for a long time, always make sure to keep the tank clean, you can clean the tank with cotton swabs or a paper towel
